removed.txt

Would you guys suggest the governor consider turning the area into a Superfund site?

There's a QA on this on our site website

**Are you considering making this a Superfund site?**

The Gold King Mine site has never been proposed to be listed on the National Priority List (NPL). At this time we haven't received any requests from the governor to propose listing this site on the NPL, which we look for as part of the agency's policy and practice.

Hey Liz,

I was wondering if EPA planned on reintroducing the idea that Gold King Mine and the surrounding areas be designated a Superfund site? I know EPA has been advocating for this before, so I was wondering if they planned on doing this in the wake of the spill?

Best,

Mike
